META-P1

SELF-AUTHORED METADATA TEST

VISIBLE_BODY_MARKER_META_P1

Visible page content is separate from hidden PDF properties.

Metadata values are fictional QA placeholders.

Self-drawn 480 x 320 RGB raster, shown at 240 x 160 pt.

No customer or personal information is present.

CONTENT CHECK 1: TEXT AND A SMALL IMAGE

Page one: synthetic geometry, readable text and a small raster.

Info and XMP fields deliberately use different QA markers.

This input does not demonstrate any product capability.

Synthetic input only. No real author, capture location or real date is encoded.

Local specimen; not a product screenshot or product output.

595 x 842 pt | Rotate 0 | Helvetica built-in fonts

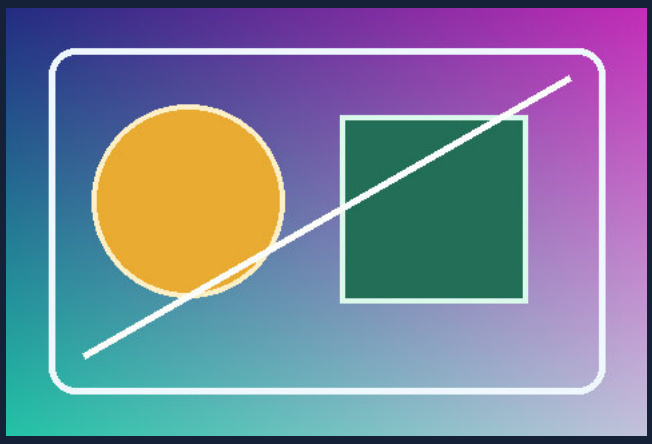

META-P2

SELF-AUTHORED METADATA TEST

VISIBLE_BODY_MARKER_META_P2

Visible page content is separate from hidden PDF properties.

Metadata values are fictional QA placeholders.

Self-drawn 480 x 320 RGB raster, shown at 240 x 160 pt.

No customer or personal information is present.

CONTENT CHECK 2: TEXT AND A SMALL IMAGE

Page two: another visible body marker and the same raster.

Any future metadata removal must be checked on actual downloads.

Do not infer a successful cleanup from a checkbox alone.

Synthetic input only. No real author, capture location or real date is encoded.

Local specimen; not a product screenshot or product output.

595 x 842 pt | Rotate 0 | Helvetica built-in fonts
