

Numbers, shapes and a small table

Self-authored fictional worksheet. No real student data.

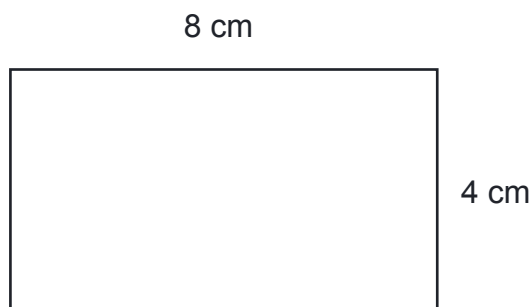

1. Solve the equation.

$$x + 3 = 7$$

Answer: $x = 4$

2. Find the area of the rectangle.

Area = 32 cm²

3. Complete the number pattern.

2, 4, 6, 8, 10

Check the printed equation, rectangle edges and unit labels.

Numbers, shapes and a small table

Self-authored fictional worksheet. No real student data.

OK

4. Read the table. Keep labels with the numbers.

Batch	Items N	Time t (s)	Rate N/t
A	6	2	3
B	12	4	3
C	15	5	3

$$R = N / t$$

For batch B, write the calculation:

$$12 / 4 = 3$$

5. Keep the thin divider and this printed note.

A cleaned page image is not automatically editable text.

Compare the table, equations and fine lines after processing.
